Demonstrations Held Over County by Miss Griffin

Home Demonstration Agent Reports on February's Meetings

WOMEN ORGANIZED

Recreation, Gardening, Preserving, Home Management, Are Topics

Home demonstration club meetings covering every section of Hempstead county were held throughout February, according to the report Monday of Miss Helen Griffin, county home demonstration agent, for that month. Her summary of home demonstration activities in February follows:

February 1. The McCusker Home Demonstration club met at the home of Mrs. Bert Scott at 2:30 o'clock. The meeting opened with a devotional read by the county home demonstration agent, Miss Helen Griffin. The minutes of the first meeting were read and approved, after which the roll was called. Twelve old members and two new members. The new business was the electing of local project leaders as follows: Recreational leader, Mrs. John Gaines; clothing leader, Mrs. Ely Kidd; poultry leader, Mrs. H. B. Eley; food preservation leader, Mrs. Ruby Clark; food preparation leader, Mrs. Bert Scott; landscaping leader, Mrs. S. G. Stone; home management leader, Mrs. John Rhodes. After the business meeting Miss Griffin took the members to the kitchen and gave a demonstration on cooked salad dressing, peanut butter, peanut butter bread and sandwich spreads. After an open discussion the club adjourned. March meeting to be held at the home of Mrs. H. B. Eley on March 1.

February 2. The Columbus women met at the school house and under the direction of Miss Helen Griffin, county home demonstration agent, organized a home demonstration club. The following officers and project leaders were elected: President, Mrs. C. R. White; vice president, Mrs. J. O. Johnson; secretary, Mrs. Mildred Johnson; reporter, Miss Virgie Caldwell; clothing leader, Mrs. S. D. Duddy; gardening leader, Mrs. T. L. Johnson; home management leader, Mrs. J. R. Shuppert; poultry leader, Mrs. J. R. Autry; food preparation leader, Mrs. J. M. Bolding; food preservation leader, Mrs. W. C. Wilson; landscaping leader, Mrs. K. D. Duddy. This club started with a membership of thirty-two. After an open discussion the club adjourned. The next meeting to be held at the home of Mrs. J. O. Johnson on February 20, at 2 o'clock.

February 5. The women of Sardis community met at the home of Mrs. Leon Hines and under the direction of Miss Griffin, organized a home demonstration club. The election of officers for the club opened the meeting and were as follows: President, Mrs. Jeff Tollett; vice president, Mrs. Marie Reed; secretary, Mrs. Leon Hines; reporter, Mrs. Norleen Greene; landscaping leader, Mrs. C. V. Hines; food preparation leader, Mrs. J. V. Reed; food preservation leader, Mrs. Roy Reed; gardening leader, Mrs. Frank Burke; landscaping leader, Mrs. Carrie Lyons; clothing leader, Mrs. John Greene; home management leader, Mrs. Verdo Tollett; poultry leader, Mrs. T. J. Livingston. There were fourteen present and thirteen joined. After the business meeting on peanut butter and hot chocolate. After a short social period the club adjourned. Next meeting to be held at the home of Mrs. Jeff Tollett on March 5.

February 7. The morning was spent at the recreational school. The afternoon at the Fulton club, at the home of Mrs. Will Cook. The business meeting covered the selection of project leaders, as follows: reporter, Mrs. H. B. Honear; food preparation leader, Mrs. E. U. Roberts; Shaver; gardening leader, Mrs. Ed Wilson; clothing leader, Mrs. Davis Dickinson; landscaping leader, Mrs. T. L. Logan; poultry leader, Mrs. W. H. Parker; home management leader, Mrs. Claude Wilson. After the business, a demonstration was given on peanut butter. There were fourteen old members and one new member. The next meeting to

2 Earthquakes Rock Salt Lake City

Buildings Sway in Utah City, Damage Reported Slight

First Tremor at 8 o'Clock Monday Morning—Another at Noon

BLOW STOPS CLOCK

Earthquake Reaches 300 Miles Northward Into Idaho

SALT LAKE CITY, Utah.—(P)—Another sharp earthquake rocked the city at 11:19 a. m. Mountain Time (12:19 p. m. Hope time) Monday.

First Shock 8:05 a. m. SALT LAKE CITY, Utah.—(P)—A sharp earthquake rocked this city shortly after 8 o'clock Monday morning.

Tall buildings swayed distinctly and clocks stopped in numerous places. The Salt Lake Tribune office, in which the Associated Press bureau is located, swayed for several seconds and the clock stopped at 8:05.

Hundreds of pedestrians stopped in the street watched the buildings shake.

The shock was felt in Ogden, 40 miles north of here, and in Midvale and Sandy, to the south.

Two windows in a bank building here were broken.

Pocatello and Idaho Falls, Idaho, the latter city 300 miles north, of here, reported feeling the shock at the same time.

The tremors continued here over a period of five minutes.

C. E. Palmer's Son Dies at El Dorado

W. D. Palmer, Young Newspaper Man, Buried at Texarkana

TEXARKANA.—Following an illness of several months, Wellington Denny Palmer, son of C. E. Palmer, died at 1:30 a. m. Sunday at El Dorado.

He had resided in El Dorado for more than two years, during which time he was connected with the News-Times, of which his father is publisher.

Mr. Palmer is survived by his father and mother, wife, two children and two sisters. His mother is now in California. His wife and children, Virginia Lee, aged 4, and Wellington, 3, are also in California.

The sisters are Mrs. W. E. Hunsman of El Dorado and Mrs. A. D. Davis of Hot Springs.

He was a native of Fort Worth, Texas, but had resided in Texarkana most of his life. He was a graduate of Texas Military College at Terrell, Texas.

The body was brought to Texarkana Sunday night.

Extortion Among Convicts Probed

State Investigating Fraud Practiced Upon Paroled Men

LITTLE ROCK.—(P)—Chairman Walter Helms of the State Penal Board said Monday that reports that paroled convicts were forced by persons to whom they were paroled to work for little or no pay are under investigation by penal authorities and the attorney general's department.

Assistant Attorney General Caldwell said he had been asked for an opinion by the board on what constituted peonage under Arkansas statutes.

Helms would not comment further than to say the matter is under investigation.

Marionettes at City Hall Tuesday

Olvera Puppeteers Appearing Under Auspices of High School

A new thrill is provided the adult amusement seeker by the Olvera Puppeteers, due here Tuesday for two performances under auspices of the senior class of Hope High School.

First showing will be a matinee performance at city hall auditorium at 2:15 p. m. for children when "Jimmy's Adventures at the Circus" will be presented.

"Puppet Gayeties of '33" will be shown Tuesday night for everyone.

Many stars of stage and screen fame have sat for the making of their puppets and come to the theatre, where this production originates. In one of their late productions Annie Sample McPherson and Professor Einstein appeared. The likenesses were extremely lifelike and the lines spoken brought a roar of applause at every performance.

A puppet show built by artists and manipulated by intelligent and clever people gives us access to a rich field of humor, no expert human clown can ever equal the humor that has been rediscovered for us by the animated cartoon, such as "Mickey Mouse."

For, added to the piquancy that is theirs through the very fact that they are puppets is the piquancy of their ability to be fabulous, to make what we all know is impossible visible and audible facts. It is this disturbing likeness to human-kind that makes the puppet appealing. Yet it is in his unlikeness that he is comical.

W. R. Beattie, Agriculturist Tells You Here How to Do It

U. S. Department of Agriculture Expert Opens Series of Special Articles for NEA Service and Hope Star

If you are one of the thousands whom the New Deal has afforded more leisure, you may be interested in the following series of articles on subsistence gardening, prepared by W. R. Beattie, of the U. S. Department of Agriculture, for NEA Service. This is the first.

Of the U. S. Department of Agriculture
Written Especially for NEA Service

More leisure, thanks to NRA, will permit more working men to devote their spare time to a diversion that will assure them and their families a plentiful supply of vegetables during most of the year.

Small plots, from backyards to acre or so in the country, are being set aside for this purpose. Subsistence gardens they are called, since they are devoted solely for subsistence or use of the families working them.

It is with the idea of setting forth the limitations of subsistence gardening, pointing out the pitfalls and giving safe and sane advice on gardening and kindred subjects, that this series of articles has been prepared.

Choosing the Land
Many failures have been due to poor quality of the land, rather than to inexperience or negligence. Much of the land near cities is poor, has been neglected, and in many cases ashes and trash have been dumped upon it. Such land requires cleaning and conditioning, before it can produce good crops of vegetables.

Sandy loam soils are ideal for gardening, but you can grow good vegetables on any type of soil that is well drained and fairly rich. You should have at least a foot of good workable soil, but if the top soil is shallower, it can be improved gradually and deepened from year to year.

This is one reason for leasing the land and working it year after year. Also, a gardener becomes accustomed to a particular piece of ground, learns its characteristics, where the various crops do best, and how to cultivate it. Avoid land that is wet, or swampy, or subject to overflow.

Size of Gardens
A subsistence garden may vary in size from a small back yard or city lot to an acre or more. The size de-

pendent on the needs of the family and the amount of time available for gardening.

For they bind heavy burdens and grievous to be borne, and lay them on men's shoulders; but they themselves will not move them with one of their fingers.—St. Matthew, 23:4.

Japan's Crack Ship Turns Over in Storm and Crew of 120 Die

TOKYO, Japan.—(P)—Japan's newest seaplane carrier, the Tominari, torpedo boat which carried an armament greater than ships twice her size, was wrecked mysteriously Monday, with a probable loss of 120 men.

The Navy declined to describe the disaster immediately.

But it was almost certain the Tominari capsized off Sasebo naval base in heavy weather.

The ministry announced that the ship was found after being missing since early morning, badly damaged, and drifting.

"Many of her crew are believed drowned," the statement concluded.

Freeman and Sorrels Win Reversal in Supreme Court Appeal

LITTLE ROCK.—(P)—Contempt judgments against the publisher and editor of the Pine Bluff Commercial were quashed Monday by the Arkansas Supreme Court which said:

"It is undoubtedly the tradition of the press of this country that it has uniformly upheld and maintained respect for the judiciary."

E. W. Freeman, publisher, and Walter B. Sorrels, editor, were fined \$100 each by Circuit Judge T. G. Parham for publication of an editorial written by Sorrels which, it was pointed out, was inconsistent with the state licensing slot-machines and then officers seizing the machines and arresting the operators.

Spa Banker Will Recover of Wound

Fred N. Rix, Hot Springs, Alleged to Be Accidentally Shot

HOT SPRINGS, Ark.—Fred N. Rix, president of the Arkansas National bank, who was found Saturday afternoon in his home shot through the left lung, was removed Sunday from the Lee N. Levi hospital to a private room in St. Joseph's infirmary. His condition was reported as "very satisfactory." It was said that he had slept most of the day.

Rix said that he had shot himself accidentally while examining a revolver he intended taking with him to the bank late Saturday afternoon when money from the Oklahoma track was taken there. He told Mayor Leo P. McLaughlin and D. O. Sims, vice president and cashier of the bank, that his injury was "due entirely to my own carelessness."

Friends of the popular young banker visited the infirmary, but no one was allowed to see him. Barring unforeseen complications it is believed he will recover.

Gurley Files Suit for False Arrest

Ex Prohi Administrator Asks \$40,000 Damages for "Malice"

FORT SMITH, Ark.—(P)—S. M. Gurley, former deputy prohibition administrator, indicted last week at Texarkana on a charge of conspiracy to obstruct the administration of justice, filed a \$40,000 damage suit against state and federal officials and a surety company Monday.

The suit, filed in circuit court, names as defendants: United States Marshal Cooper Huds-peth, Sheriff Turquette of Miller county, and three other federal officers, and alleges false arrest, assault and battery, robbery, malicious prosecution, slander and libel.

This suit is based on Gurley's arrest several months ago at Texarkana for alleged acceptance of money from a federal court defendant upon an alleged promise to obtain leniency for the defendant.

Veto Is Awaiting House Measure in Spite of Majority

House Moves for Immediate Consideration of Patman Bill

VOTE IS 313 TO 104

Two Hours of Debate Divided Equally Between Opposing Factions

WASHINGTON.—(P)—By more than a two-thirds vote, that necessary to override the expected presidential veto—the house Monday approved immediate consideration of the Patman cash bonus bill.

The roll call vote was 313 to 104. The actual vote on the measure will be taken after two hours debate, equally divided between opponents and proponents.

Representative Fish, New York Republican, controlled the opposition hour, and Patman, of Texas, the hour allotted those in favor of the bonus payment.

A presidential veto has been promised the cash payment proposal.

Bonus Bill to Pass

WASHINGTON.—(P)—Advocates of cash payment of the soldiers' bonus Sunday night predicted passage of the Patman bill by the house Monday.

Jubilant over prospects for favorable action despite President Roosevelt's announced intention to veto the bill, the bipartisan group of a hundred or more decided to support without change the Patman bill to pay the bonus in United States notes.

After a two-hour closed meeting, Representative Patman, Democrat, Texas, who will lead the fight for passage Monday, announced:

"We feel confident we will get much more than a majority vote of the house."

The first vote Monday will come on a motion by Patman to discharge the ways and means committee from consideration of his measure, which would authorize issuance of \$2,200,000,000 in notes for immediate payment of the bonus certificates, ordinarily maturing in 1945.

It requires a majority vote to adopt his motion. Debate will be limited to 10 minutes each for the opponents and proponents. Adoption would bring the bill before the house for consideration, debate to be limited to one hour. Then a final vote on passage would follow.

Although an amendment by Representative Hancock, Democrat, North Carolina, to permit the bonus to be paid under authority of the Thomas amendment to the Farm Adjustment Act was considered, the meeting Sunday rejected it in favor of the Patman bill as it stands.

Patman Lauds Bill
"Those of us who met and who are in sympathy with this legislation," Patman said, "decided that no improvement could be made on the bill, which was drafted by the legislative drafting service."

Patman said the Veterans Administration provides no better plan of payment. It provides that the United States notes issued be kept on a parity with all other monies and all gold in the Treasury is placed behind it, as all gold in the Treasury is behind all other currency."

Democratic and Republican House leaders, meantime, passed the word that the bonus was not a party issue, and indications were that the vote would be split. Party leaders conceded the bonus probably would pass, but pointed out that since the senate defeated the proposal as a rider to the independent officers' bill, it probably would die there.

Conservatives Optimistic
Although still disturbed over the situation on the senate amendments on the independent officers' supply bill, carrying \$354,000,000 in veterans' benefits and government pay restoration, Democratic conservatives feel that if the bonus is passed Monday, they may have a better opportunity to bind their membership in a caucus called for later in the afternoon. They plan to have Representatives Byrnes of Tennessee, Democratic leader, renew his motion to send the bill to conference without instructions.

Members of the steering committee, who decided on this course, were seeking to round up their colleagues to support the motion in view of the president's threatened veto of the bill if the house agrees to the senate amendments.

At a caucus called last Thursday, the veterans' bloc overthrew the leaders, and left the bill with the appropriations committee. However, there were a hundred absentees and the conservatives believe that when the motion is put tomorrow, the result will be favorable.

Their purpose is to get the bill into conference between committees representing the senate and house with the hope they can work out a compromise satisfactory to President Roosevelt who believes the increased expenditures will wreck his economy program.

Has Paid 20 Millions Income Tax in Last 20 Years

WASHINGTON.—(P)—Andrew W. Mellon, former secretary of the Treasury, Sunday night characterized the action of Attorney General Cummings in authorizing a grand jury investigation of the former cabinet member's income tax affairs as "politics of the crudest kind."

Mellon's statement was issued soon after it became known that Justice Department officials would institute criminal proceedings soon against more than a score of other alleged income tax evaders.

Cummings Sunday night authorized proceedings against James J. Walker, former mayor of New York, Thomas S. Lamont of J. P. Morgan's banking house, and Thomas Sidlo, Cleveland lawyer, as well as Mellon.

Headed by Assistant Attorney General Frank J. Wideman, 50 lawyers in the Justice Department's tax division are working in co-operation with Treasury attorneys in preparing new cases.

The 78-year-old former cabinet officer and ambassador to the Court of St. James gave reporters a 1,000-word statement. His only comment was: "These don't add any frills."

BEHIND THE SCENES IN Washington

Wired Answer to How Graft Uncovered in Capital... Payer, Mixer, Esthetics and Business... Arthur Robinson Stubs His Toe... Giam Brims Over With Love for U. S.

BY RODNEY DUTCHER
NEA Washington Correspondent

WASHINGTON.—Crafters and others who suddenly find themselves bounced from the government service wonder how it came about.

Only a few insiders know—and they'll never tell.

The truth is that wire-tapping by federal agents didn't end when Uncle Sam gave up trying to enforce prohibition. The Secret Service, Department of Justice, and espionage agencies in various departments and New Deal organizations have developed it with many new scientific wrinkles.

It's a simple matter to listen in on not only every telephone talk, but also every other conversation in a government employee's office.

One device cuts in on a telephone extension and records every conversation.

On a high official can have a contraption installed which will produce a buzz in one of his desk drawers as often as a suspect's telephone is in use, whereupon he can pull the drawer open and hear issuing therefrom the entire conversation.

Hidden microphones sometimes are installed in offices so that others in another room of the building can hear all non-telephonic conversations.

Evidence in recent scandals here has been gathered by such means. I'm not at liberty to tell which ones. It's a question whether the methods are used only to detect dishonesty or whether they're sometimes not used for political or other purposes. Some officials believe in discretion on the phone at all times.

Esthetics in Business

When Councillor Boris Skvirsky, President Bogdanov of Amtorg, and other Soviet agents discuss Russian trade with Harry Payer at the RFC, they lean their elbows on a desk once used by the Czars.

It's a huge object of dark oak, intricately carved in female cupids, bearded gargoyles, acorns and whatnots in the Flemish renaissance style. It has secret compartments, is 200 years old and resembles nothing else you'll find in any government office.

It responded in the Winter Palace at St. Petersburg until the Soviet government sold it to someone who sold it to Payer.

Payer is special counsel to RFC's export and import division. As assistant secretary of state, he was called "Mr. Pickwick," because he looks like that. He says he can work better if things he likes are around him.

So he also has a big Italian screen with pretty scenes painted on it, his own drapes, and painting by Bogart. "Evening in Venice"—which lights up if you pull a chain.

Everyone in RFC has come to the Payer office to take a big look.

Robinson Stubs Toe

Did Senator Arthur Robinson of Indiana stub his toe during the battle over restoration of veteran benefits and federal salaries? His political enemies think he did—and they've been waiting for him to stub.

For two days individual senators piled amendments on the independent office appropriations bill until additional expense amounted to about \$120,000,000 for restoration of the federal salary cut and \$120,000,000 more for veterans.

When Borah suggested that officials drawing \$6000 a year or more continue to take the 15 per cent pay cut, Robinson assured the Senate he had no desire to raise his own pay. But then White House promise of a veto came.

Borah actually introduced an amendment to that purpose, saying it would save money, and give the veterans a better chance.

Robinson then voted against the amendment—and his enemies leaped upon his vote for campaign use in Indiana.

Guam Loves Us

Just as we're working out plans for getting rid of the Philippines, the natives of the Island of Guam demand of Roosevelt that they be declared U. S. Citizens.

A petition signed by 1965 of them avers that all under the age of 50 have been taught English, that they love this country, its flag, and the principles of the constitution, that they're not polygamists or anarchists, and that they "fervently aspire" to citizenship.

YOUR CHILDREN

By Olive Roberts Barton

Humiliation Gives Rise to Bad Behavior—Shame May Make Sensitive Child Cross, Rowdy

Humiliation—one of the most important factors in behavior—is described by Olive Roberts Barton in another article on Child Training.

About half the poor conduct of all children and all grownups makes its bed in a feeling of humiliation. We will not be put into a shamed or embarrassing position, therefore we become suspicious of every word or act of others.

This pride of ours has eyes all over its head, ready to take umbrage at the slightest suggestion of insult.

And, strange as it may seem, the more reason for the affront, the touchier we get. If we're ugly, or poor, or in disgrace, we think that every one is trying to rub it in. We distort the most innocent remarks and become hypersensitive.

So let us take a child who is sensitive about something. We won't know it because no one can guess what is in a child's mind. He is so secretive about his personal feelings that he'd rather die sooner than tell.

Humiliation buries itself deep. He may be ashamed of his looks, how-ever beautiful he is. He may be sensitive because he cannot get his lessons, or because he has to wear a tie, or a suit he hates. Or he may be sensitive about home conditions.

How Trouble Begins

Perhaps his parents are quarreling all the time. He knows it. Or it thinks other people know it. Or it thinks other people don't stand well in the community, or his mother is known as a "character." It may be that he lives in a rich neighborhood where the other children have everything and he considers himself poor.

He won't let on that he is suffering, as only a child can who has not the qualifying relief of his elders—he won't show by so much as a quiver that he notices "difference." He'll just go on and pretend that everything is usual and normal and that he's like all the other boys. Please remember this includes girls, too.

Then suddenly he becomes cross, disobedient, impatient, and lazy, or even takes to lying. He won't do anything he's told, he gets careless about his appearance, fights the boys, and turns bully.

Every one is puzzled. And of course every one comes down on him hard. He won't take it as a just reprimand, but instead will look on it as a real persecution directed at his shame.

It is his way of reprisal, the retaliation that comes after hurt.

Keeping Sufferings Secret

A man insults another man and he gets knocked down. The boy is humiliated and he can't always knock any one down, but he can do and does other things.

He will camouflage that deep hurt of his. He won't allow the world to suspect his secret suffering so he turns into a devil of a fellow to throw up a cloud of fog. Why, oh why, is our "ego complex" so afraid to tell the truth?

Thus we have another reason for so-called bad behavior, a pitiful reason that needs understanding. It is one of the greatest problems of all, because it is so untraceable.

However, a mother can get at it sometimes, if she suspects a hidden unhappiness. If she can correct the situation without talking to him it might work a quicker cure. Because talking sometimes deepens the determination to hide the real state of affairs. It depends somewhat on the child. Whatever she says must be careful thought out so as not to cause self more trouble. It takes an expert on such things to find the trouble without the child suspecting.

If the reason is known to the parent, the best thing is to remove it, if possible.

depends on the family requirements and the time the gardener can devote to gardening.

The size of the garden also depends somewhat on the kinds of vegetables to be grown. If the gardener aspires to grow his winter supply of potatoes, onions, cabbage, turnips, carrots, plenty of tomatoes for canning, and a generous supply of sweet corn and other crops that require considerable land, an acre will not be too much.

On the other hand, the gardener only plans to grow the smaller crops.

The ROMANTIC RUNAWAY

BEGIN HERE TODAY

PABLITO, a handsome 17-year-old youth, works at the palatial home of millionaire JIM FIELD. When Field's daughter, ESTELLE, arrives he falls in love with her almost at sight.

Pablito knows nothing of his parents—a titled Englishman and a servant girl. As a child he ran away from ANGELA, the heartless old crane in whose care he was left. Since then he has lived with NORA, a street urchin, who has been a mother to him ever since.

TED JEFFRIES, a great at the field home, sees Pablito and recognizes him. Noyes flees to the swamp where he overhears a man and a girl planning to rob the field house during a midnight party the following evening. Pablito gives Noyes money to go to Havana and promises to meet him there later.

Pablito, disguised as a tenebrous, goes to the midnight party in order to talk to Estelle.

NOW GO ON WITH THE STORY CHAPTER X

PABLITO found Estelle a little withdrawn from the crowd. No one seemed to notice the slender child swathed in green tulle. She was royally exiled by a mask and she wavered, a fledgling, while sure-footed seduction moved easily and surely; jewels twinkled on low-bared breasts, invitations in languid-lidded eyes.

There was a pathetically uncertain smile about her still plastic lips and there was a little ache in her stiffening cheeks which had grown of forcing the smile.

"May I sit with you?" Pablito asked. It was what he had planned to say but he had not planned that his voice should shake as it did.

"If you care to," she answered and he dropped to the rug beside her. She smiled naturally now and suddenly she flushed. She had recognized Pablito because of the blueness of his eyes. She thought, her heart warming, that in all her dreams of the party she had not dared hope this dream could come true!

She wanted to say, "I'm so glad you came!" but she stifled the impulse. Perhaps he might not want her to appear to recognize him, knowing that he must have come unbidden and by a circuitous route.

"It's a lovely night for the party, isn't it?" she asked.

"I suppose so, but if it were pouring I wouldn't know it—now."

"Oh!" She did like him so much and he said such pleasant things! "I've thought of this and thought of it," he confessed, his voice intense.

"Have you really?"

"Last night I couldn't sleep for thinking about it," she heard next. It was a curious feeling that she was experiencing. She was happy and yet she wanted to weep a little in April fashion and to lay her hand on his. She wondered whether that was a dreadful wish and knew she could not help it even if it were. She did want to lay her hand on his.

"You don't need those pipes," he said next. "Anywhere you are there is music."

"You say—very kind things."

HE shook his head quickly, vehemently without answer. Then, drawing a deep breath, he looked down at the small pipes which she held. Something that grew of her new emotions made her speak quickly. "I—I like your dagger," she said.

He drew it from the wide red sash as he answered, "It's real so

Penitentiary Slate Virtually Clean Except for Furloughs

LITTLE ROCK.—(P)—The "escape slate at Tucker Prison Farm was almost wiped clean this week with the return to the prison of Ray Baker from Alpine, Texas, where he was captured February 20 after officers had seriously wounded him when he resisted arrest.

She smiled, liking his manner of speech, but frowned an instant later because she did not like the meaning of it.

"That is foolish," she said.

"I wish it were. Things would be so much simpler. You see, as it is, I have to acquire the proper armor—dinner clothes—somehow and a lance—I mean a check book. And I have to learn the password which is knowing the 'right people.' There's so much I haven't that I need!"

"You are very clever," Estelle said. "Who taught you about all those things?"

"I can tell you," he answered, a little worry creeping into his voice. "For a moment she was chilled, falling to see loyalty in the wall between them. "But I'm not clever," he added.

"I wish I could see your face," she said.

"I see yours in the dark or light and I see it most of the time."

SHE was vaguely depressed by the sweetness that made so thick and overwhelming an aura around her and by the transiency of such sweetness, which she knew because on the morrow the mists would begin to pack for the flight north.

"Are you going north?" she asked.

"No." He sat looking down at her steadily and worshipfully. In a few short hours miles would lie between them. Suddenly she leaned toward him and he felt her hand on his. He turned quickly to grip her fingers and remembered the fact that her hand was small and soft and that he must not hurt her.

"We must be friends," she said not quite steadily. "I do so want us to be friends."

For a moment he pressed her hand against his breast where the hard pounding of his heart would speak for him. Then abruptly he released it to sit away from her, his strong teeth set on his lower lip, frowning quickly to re-capture a little steadiness.

"The first automobile part doesn't matter," she whispered.

"Oh, but it does!" he contradicted, his voice almost harsh. "I have lived one life and looked on at another and it has taught me a lot I would have missed if I had been walled inside the one or the other. But I'm going to work for the right to come back and pound on the front gate. I'm going to work for nothing else but that. Will you remember that?" He had to stop to get his breath. "Will you remember," he went on, "that I am coming back and that I shall never forget it and that I'll live on my dreams about it?"

"Yes," he heard her whisper.

He drew a deep breath, then lifted her clasped hands from her knees to kiss first one and then the other. She shrank a little because she loved it so. He whispered, brows drawn close by feeling, "You needn't be afraid of me—ever—in any way. Will you remember that, too?"

"Yes," she whispered again, and thought, "I wish he would kiss me." She did not care whether the thought were wicked or not; she wished he would kiss her!

30 Days That Rocked the Nation

Reviewing the Crash—One Year After

Grimly grinding away, the presses at the U. S. Bureau of Engraving and Printing produced emergency Federal Reserve bank notes. Here is Secretary Wooten, center, with (left and right) J. H. Douglas, assistant secretary, and A. W. Hall, director of the bureau.

Twenty-sixth and Twenty-seventh Days March 11, 12

The presses in the Bureau of Engraving and Printing were roaring on Saturday, March 11, feverishly grinding out the new money which was being distributed to Federal Reserve banks and through them to other banks to prepare them for opening.

Even as repeated earth tremors were shaking parts of southern California, the House passed a bill to give to President Roosevelt the requested powers to make economies in veterans' pensions and salaries which it now was conceded that Congress itself did not dare make.

The 266-138 majority for the \$500,000,000 economy program showed again, as it had the day before, that there was no question at all Congress' intent to "stand by the president."

The first murmur of opposition came on the reduction of veterans' benefits—a murmur that was to grow until, later in the year, it was necessary to modify some of the cuts.

A petition of 150 economists was presented to the president, asking that some means be found to raise prices to a higher general level.

The "breathing spell" that came with Sunday, March 12, gave people their first chance to look ahead and see Hitler and Hindenburg uniting to make Nazism secure as the new German regime, the shooting to death of 35 Soviet leaders, and the retirement of vast numbers of Chinese troops from the Jehol and Manchurian lines.

NEXT: Banking clouds begin to lift.

eight persons in a wild escapade in and about Texarkana brought him some notoriety.

Goins now is serving a term in federal prison for the Kevell plot office robbery.

Baker, serving a three-year term from Craighead county for burglary and grand larceny and committed to the prison farm in April of last year, dashed to freedom while working with a convict squad in a field of tall corn at the farm in July.

Several other convicts are at large, including Leland Henley, life term who failed to return from a Christmas furlough granted so that he might visit his aged mother at Mountain View. All of the convicts except Henley, however, are at large through failure to return from furloughs, Superintendent Stedman said.

A standing reward of \$25, paid from the penitentiary fund, is offered for information leading to the apprehension of any convict on the "wanted" list.

It will be fine when prosperity is definitely back and we can once more buy the things we can't afford.—Lufkin Daily News.

Dance Nature's Theft.
We told the birds about it and they sung it into silence!
Twins whispered to the breezes and they chased it far away!
The roses tossed their petals and declared 'twas silly, nonsense!
And made us half ashamed of it—our pack of workaday
We saw it changing color as a saucy sunbeam crossed it;
We watched it growing smaller as we knelt to stomp it and
We really cannot tell you just the moment that we lost it;
Twins dear old Mother Nature cried: "Your worry-puck has gone!"—Selected.

MELLON ACCUSED

"The action which the attorney general has taken in seeking to secure an indictment against me on the charge of income tax evasion is politics of the crudest sort.

"I am as much in the dark as anyone as to any possible grounds he could have for such action, but I am glad, under any circumstances to get my tax affairs out of the attorney general's office and into the courts, where I am satisfied I shall get justice and a prompt disposition of the case which has so far been denied me.

"No charges have ever been made by the Treasury of any tax evasion by me, nor have I been advised by either the Treasury or the Department of Justice of any intention to try to collect additional taxes from me. All income taxes which have ever been levied against me have been paid and in no single year have I failed to pay a very substantial income tax. The total has amounted in the last 20 years to over \$20,000,000.

"I feel very strongly that before the attorney general of the United States should bring a charge of this kind against me, I like any other citizen, should be given proper notice in the manner provided by law, of the government's intention to assess additional taxes and should have been afforded an opportunity to meet such charges in the customary way.

"In all my years of experience in the administration of the law, I have never known of a single instance in which such unfair and arbitrary action has been taken."

Doctors Give Creosote For Chest Colds

For many years our best doctors have prescribed creosote in some form for coughs, colds and bronchitis, knowing how dangerous it is to let them hang on.

Creosolium with creosote and six other highly important medicinal elements, quickly and effectively stops coughs and colds that otherwise might lead to serious trouble.

Creosolium is powerful in the treatment of colds and coughs, yet it is absolutely harmless and is pleasant and easy to take.

Your own druggist guarantees Creosolium by refunding your money if you are not relieved after taking Creosolium as directed. Beware the cheap or cold that hangs on. Always keep Creosolium on hand for instant use. (adv.)

It means something—

Perhaps the best type of machine ever built for moistening tobacco. Recently perfected from a model built in our factory and now used in the manufacture of Chesterfield Cigarettes.

This picture shows the machines used to remove the stems from Chesterfield tobaccos.

THIS most modern way of moistening tobacco for stemming—first used in the manufacture of Chesterfields—opens up the pores and puts the tobacco in condition to remove the stems.

The tobacco is put into the wire baskets stems down and enters the long steel ovens where the steam comes up from below, softening the stems without wetting the rest of the leaf.

The stems are removed by stemming machines of the latest type.

Everything that modern science knows about, or money can buy, that can make a milder cigarette, a cigarette that tastes better, is used in making Chesterfield.

General Motors Returning to Fair

Adds Million Dollars to 2-Million Exhibit at Century of Progress

CHICAGO—The General Motors corporation, whose exhibit drew more than 10 million visitors at the 1933 World's Fair, will be back again next year. Officials of the automobile manufacturing company signed contracts with A Century of Progress which indicate that the exhibit, the largest in the Fair last year, will be conducted on even a bigger scale this year.

The General Motors building and grounds cost 2 million dollars in 1933. To this investment the company will add another million dollars in 1934. The money will be spent to bring the exhibits up to date and to install additional features. The building and grounds are to be improved.

R. H. Grant, vice president of General Motors, in signing the new contract to continue participation in the Exposition, said:

"We are remaining in the Fair because we think it will be successful again this year. When we first went into it I, personally, felt that it would be an impetus to recovery. I believe that it served the country well in this respect. Now, that recovery is quite apparently on the way, I believe that the Fair will render a further national service by lending additional impetus."

It was declared impossible to present accurate estimates of direct business resulting from the corporation's participation in the Fair, but executives described themselves as "more than satisfied that our participation was and is a gifted investment."

Unfortunately too many political leaders do not have to die to lie in state.—Dallas News.

High Blood Pressure

Quick Relief, or You Only Pay When Satisfied

If you suffer from High Blood pressure, dizziness, ringing in the ears, can't sleep at night, feel weak and shaky, bad taste, nervous. If your heart pounds and you fear a paralytic stroke, to demonstrate Dr. Hayes' prescription we will send you postpaid, a regular \$1 treatment on absolutely FREE TRIAL. While it is non-specific, many cases report remarkably quick relief; often symptoms diminish and normal sleep returns within 3 days. Contains no salts, physics, opiates or dope. Safe with any diet.
